Center Director

Angela Merritt

"At the end of the day, I hope I have made someone's day a little brighter."

After graduating from Greenville Technical College in 1988 with an associate degree in nursing, Angela Merritt began her career as a registered nurse working at a local upstate hospital. Over the course of the 21 years since, she has also worked in home health care and outpatient surgery as well as taught in the Patient Care Technician program at Greenville Technical College. It was in this role as an instructor that Merritt was first introduced to the adult day care industry, as she and her students had the opportunity to work with elderly and disabled adults in a clinical setting.

Merritt has been the center director at Active Day of Liberty since March 2008. She enjoys caring for clients from all walks of life, especially those with Alzheimer's and young adults with mental or physical disabilities.
