

## **Liberty Recreation Project Updates for 2020**

- 1. Woodside Park**      Preparations are under way for the Lazer grading of Woodside Park is underway to fix the drainage issues on the infield playing surface.  
\*Funding for the project was made possible by a collaboration of funds from the Pickens County Recreation Board, The Liberty Recreation Booster Club, and the Liberty Rec Cheerleader Penny a Vote Fundraiser that was in September of 2019 during the football homecoming event.  
**THANK YOU TO ALL INVOLVED, WE APPRECIATE YOUR SUPPORT.**
- 2. Woodside Park**      The pole with a bank of lights that was blown down a couple months ago during a day of high winds, will be repaired, hopefully by the middle of February. A report of the incident was filed with SCMIRF and the insurance will cover all of the cost to repair with new pole and lights, after the \$1000.00 deductible is met.
- 3. Woodside Park**      The new safety padding for the backstop light poles, and the catcher protection pad at the backstop wall is in. Plans are to install the new Padding by the first of March, just in time for the 2020 baseball season. This project made possible with the help of the Liberty Rec Booster Club.  
**THANK YOU LIBERTY REC BOOSTER CLUB!!**
- 4. Morris Field**      All of the old picnic tables at the Morris Field picnic shelter will be repaired with new tops and the table frames will be painted. This project was made possible, once again by the Penny a Vote Cheerleaders fundraiser that was held in September 2019 for the Rec football homecoming event.  
**THANK YOU GIRLS!! WE APPRECIATE YOUR HARD WORK!**
