LIBERTY, SOUTH CAROLINA

TABLE OF CONTENTS

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of the City Council City of Liberty Liberty, South Carolina

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Liberty as of and for the year ended June 30, 2015, which collectively comprise the City's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

P. O. Box 925 Easley, S. C. 29641 Telephone (864) 855-5621 Fax (864) 855-5622 Member of American Institute of Certified Public Accountants South Carolina Association of Certified Public Accountants To the Honorable Mayor and Members of the City Council City of Liberty Page Two

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Liberty, South Carolina, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplemental Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the budgetary comparison information on pages 44-45 and 46-50, the Schedule of the City's Proportionate Shares of the Net Pension Liabilities on page 51 and the Schedule of Pension Plan Contributions on page 52 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures to express an opinion or provide any assurance.

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

To the Honorable Mayor and Members of the City Council City of Liberty Page Three

INDEPENDENT AUDITORS' REPORT (CONTINUED)

Other Reporting Required By Governmental Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2015, on our consideration of the City of Liberty's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City of Liberty's internal control over financial reporting and compliance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Liberty's basic financial statements. The Schedule of Fines, Assessments, and Surcharges on page 54 is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Fines, Assessments, and Surcharges is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements and the statements and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Fines, Assessments, and Surcharges is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

CITY OF LIBERTY, SOUTH CAROLINA RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2015

inge in fund balance - total governmental fund nounts reported for governmental activities in the st	atement of activities are different because:	(\$98,115
The governmental fund reports capital outlays a	s expenditures. However, in the	
statement of activities, the cost of those assets is		
useful lives and reported as depreciation expens		
which depreciation exceeded capital outlays in t		
The details of the difference are as follows:		
Capital outlays	\$ 221,438	
Depreciation expense	(251,854)	(30,416
Governmental funds report retirement contributi	ions made subsequent to the measurement	
date of June 30, 2014 as expenditures. However	r, these retirement contributions are not reported	
in the statement of activities but are reported as	deferred outflows of resources in the	
statement of net position. The actual pension ex	pense reported in the statement of activities	
is the City's proportionate shares of the annual c	changes in both the SCRS and PORS net pension	liabilities.
This is the amount by which the pension expense	e exceeded the retirement contributions	
that were made subsequent to the measurement of	date of June 30, 2014.	
The details of the difference are as follows:		
SCRS and PORS retirement contribution	1	
the measurement date of June 30, 2014		
SCRS and PORS proportionate pension	n expense (142,515)	4,507
Repayment of debt principal is an expenditure is	n the governmental fund, but the	
repayments reduce long-term liabilities in the sta	atement of net position. This is the	
amount of long-term debt payments.		87,888
Unearned revenue in the governmental fund is s		
wide statement. This amount is a net decrease in	n unearned revenue of \$538.	(538
Property taxes, deferred inflows of resources in		0.05
accrual on the entity-wide statements. This amou	unt is a net increase in deferred inflows of \$8,831	l. 8.83 l
Some expenses reported in the statement of activ		
financial resources and are not reported as expen-		2 201
includes the net decrease in compensated absent	ces of \$2,798, a decrease in expenses.	2,798
Accrued interest expense is reported in the entity	y-wide statements but is not reported in	
the governmental fund. This includes the netded	crease in accrued interest, a reduction in	
in expenses.		484
	ligations as other financingsources. However in t	he
entity-wide statements, capital lease obligations	are reported as additional liabilities.	(167,883

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Liberty. South Carolina (the City) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for established governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

Reporting Entity: The City operates under a Council form of government and provides the following services: public safety (police and fire), streets, sanitation, water and sewer, and general and administrative. In evaluating how to define the City, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic but not the only criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the City and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the City is able to exercise oversight responsibilities. Based upon the application of these criteria, the financial statements for the City consist only of the funds and account groups of the City. The City has no oversight responsibility for any other governmental entity.

The following is a summary of the more significant policies:

GASB Statement No. 62, "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements" The primary objective of GASB No. 62 is to directly incorporate the applicable guidance from certain FASB and AICPA pronouncements into the state and local government accounting and reporting standards.

GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position" This statement requires governments to report all assets, deferred outflows of resources, liabilities, deferred inflows of resources, and a net position of the governments, which is the residual of all other elements presented in the entity's statement of financial position.

GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities" This statement requires governments to reclassify certain items as deferred outflows of resources that were previously reported as assets and to reclassify certain items as deferred inflows of resources that were previously reported as liabilities. This statement also provides other financial reporting guidance related to the impact of the financial statement elements of deferred outflows of resources and deferred inflows of resources. Specifically, the statement amends the criteria for determining major funds and limits the use of the term *deferred* in financial statement presentations.

s,

The City adopted the following new Governmental Accounting Standards Board (GASB) pronouncements for the year ended June 30, 2015.

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" This statement provides guidance on a state or local government employer's accounting and reporting for employee pensions. Under this statement, the employer is to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. Also, if a state or local government employer makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the employer's reporting period, the statement requires the employer to recognize its contributions as deferred outflows of resources in the statement of net position. In addition, the statement requires recognition of deferred outflows of resources and deferred inflows of resources in the statement of net position for changes that arise from other types of events in the net pension liability of a state or local government employer. Moreover, the statement requires the employer to adjust the beginning net position balance for what the amount would have been if the statement had been implemented in the employer's prior reporting period. Specifically, the beginning net position balance should be adjusted for the following items determined as of the measurement date of the beginning net pension liability: the net pension liability; contributions made by the employer; and any deferred outflows of resources and deferred inflows of resources, if determinable. Contributions made by the employer subsequent to the measurement date of the net pension liability are now required to be recognized as deferred outflows of resources in the statement of net positon. However, GASB Statement No. 68 further states that the beginning net position should not be adjusted for any deferred outflows of resources, including contributions made subsequent to the measurement date of the beginning net pension liability, or any deferred inflows of resources if it is not practical to determine all of the amounts. This requirement under the statement was later amended with the adoption of GASB Statement No.71, which is explained below.

GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date" This statement is an amendment to paragraph 137 of GASB Statement No. 68. Before this amendment, paragraph 137 of GASB Statement No. 68 stated that if it was not practical for an employer to determine the amounts for all deferred outflows of resources and deferred outflows of resources as related to pensions then the beginning net position balance should not be adjusted for any deferred outflows of resources or deferred inflows of resources. However, this could result in a significant understatement of the employer's beginning net position and expense. Therefore, this statement amends paragraph 137 of GASB Statement No. 68 to require that upon implementation of GASB Statement No. 68, a government is to adjust its beginning net position balance for contributions made subsequent to the measurement date of the beginning net pension liability. GASB Statement No. 68 continues to require that the beginning net position be adjusted for other deferred outflows of resources and deferred inflows of resources only if it is practical to determine such amounts upon implementation of the statement. This was not amended by GASB Statement No. 71.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements.

Governmental activities, which are normally supported by taxes and intergovernmental revenues or from specific revenue sources such as grants, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for the governmental fund and the proprietary fund.

Measurement focus, basis of accounting, and financial statement presentation

The government-wide and the proprietary fund financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting.* Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due.

The government reports the following major government fund:

The *general fund* is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The government reports the following major proprietary fund:

The enterprise fund accounts for the activities of the utility services.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Measurement focus, basis of accounting, and financial statement presentation (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Amounts reported as *program revenues* include charges to customers or applicants for goods, services, or privileges provided, operating grants and contributions, and capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Assets, Liabilities, and Net Position or Fund Balance

Cash and Investments:

Cash includes amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the government. If applicable, investments are stated at cost, which approximates market value. Section 6-5-10 of the SC Code of Laws outlines authorized investments for political subdivisions. The City has chosen to adhere to the SC Code of Laws regarding the type of investments that it is allowed to make as opposed to formally adopting its own deposit and investment policy.

Receivables and Payables:

Outstanding balances between funds are reported as "internal balances." Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable governmental fund to indicate that they are not available for appropriation and are not expendable available financial resources.

Property taxes, other than vehicle taxes, are normally levied in October and are payable without penalty through the following January 15th. Vehicle taxes are assessed and collected on a monthly, cyclical basis. By contract the City has authorized Pickens County to assess and collect all vehicle taxes. These collections are remitted to the City of Liberty by the Pickens County Treasurer.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Assets, Liabilities, and Net Position or Fund Balance (continued)

Prepaid Items:

Payments made to vendors for services that will benefit periods beyond the end of the fiscal year are recorded as prepaid items.

Restricted Cash:

Restricted cash in the general fund consists of fines, assessments, and surcharges retained by the City for the purpose of victims' assistance. The restricted asset cash is required to be maintained in a separate bank account by the State of South Carolina.

Restricted cash in the general fund also consists of the revenue generated by the hospitality tax to be used by the City exclusively for recreation and tourism development.

Furthermore, restricted cash in the general fund consists of the cash held in the Special Tax Allocation Fund which is to be used to provide for the payment of the principal and interest of the Tax Increment Bond, Series 2004.

Such general fund resources are included in cash on the financial statements and consist of the following:

Total Restricted Cash in General Fund	<u>\$ 282,247</u>
TIF Debt Service	226,319
Recreation and Tourism	23,840
Local Law Enforcement and Victims' Assistance	\$ 32,088

Restricted cash in the enterprise fund consists of certain resources set aside for the repayment of certain designated expenses. The restricted cash is limited by applicable bond covenants. Such resources are included in cash on the statement of net position and consist of the following:

Total Restricted Cash in Enterprise Fund	19.796
Reserve for Contingency	\$ 9,898
Reserve for Depreciation	 <u>9,898</u>

The "contingency" account is used to report resources set aside to meet unexpected contingencies. The "depreciation" account is used to report resources set aside to fund asset renewals and replacements.

Capital Assets:

Capital assets, which include property, plant, and equipment, are reported in the governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$500 and an estimated useful life in excess of two years. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets (Continued):

The costs of normal maintenance and repairs (repairs that do not add to the value of the assets or materially extend the assets' lives) are not capitalized.

Property, plant, and equipment of the primary government is depreciated using the straight line method over the following estimated useful lives:

Assets		Estimated Useful Lives	
Buildings	10-40	Years	
Roads, sidewalks, and city lots	20	Years	
Building Improvements	4-15	Years	
Vehicles	3-5	Years	
Machinery and equipment	3-10	Years	
Furniture & fixtures	5	Years	
Software	3	Years	

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

Compensated Absences:

It is the City's policy to permit full-time employees to accumulate limited amounts of earned vacation leave. Upon separation from service, employees receive payment for a portion of unused vacation leave subject to length of service and contract classification. All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements.

Long-term Obligations:

In the government-wide and proprietary fund financial statements, outstanding debt is reported as a liability.

The governmental fund financial statements recognize the proceeds of debt as other financing sources of the current period.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Net Position and Fund Balance:

Net position in the government-wide and proprietary fund financial statements are classified as invested in capital assets, net of related debt; restricted; and unrestricted. Restricted net position represent constraints on resources that are either externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or imposed by law through state statute.

In the governmental fund financial statements, fund balance is composed of five classifications designed to disclose the hierarchy of constraints placed on how the fund balance can be spent.

The governmental fund types classify fund balances as follows:

Nonspendable Fund Balance – This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance – This classification includes amounts that are restricted to specific purposes externally by creditors or imposed by law.

Committed Fund Balance – This classification is the portion of the fund balance that can only be used for specific purposes imposed by majority vote by the City of Liberty's governing body (highest level of decision-making authority). Any changes or removal of specific purpose requires majority action by the governing body.

Assigned fund balance – This classification is the portion of the fund balance that the City of Liberty intends to use for specific purposes as established by the City's Council or by the City's Mayor.

Unassigned fund balance - This classification is the portion of the fund balance that has not been restricted, committed, or assigned to specific purposes or other funds.

Unless specifically designated otherwise, fund expenditures and encumbrances are from restricted fund balance to the extent of restricted fund balance revenue, followed by committed fund balance, assigned fund balance, and unassigned fund balance, respectively.

Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the City's financial position and results of operations and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

NOTE 2 - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental fund* and *net position- governmental activities* as reported in the government-wide statement of net position. One element of the reconciliation states that capital assets used in government activities are not financial resources and, therefore, are not reported in the governmental fund but are reported in the government-wide statement of net position.

Capital Assets, Net of Depreciation	\$ 1,563,768
-------------------------------------	--------------

Unearned revenue, a liability in the governmental fund, is susceptible to full accrual in the government-wide statement of net position. This is the additional unearned revenue that has been taken into income in the government-wide statements.

Unearned Revenue	\$ 2,321

Property taxes, deferred inflows of resources in the governmental fund, are susceptible to full accrual in the government-wide statement of net position. This is the additional deferred inflows of resources that have been taken into income in the government-wide statements.

Deferred Inflows of Resources, Property Taxes \$ 82,346

Another element of the reconciliation states that accrued interest is recorded in the government-wide statements but is not recorded in the governmental fund. This is the additional accrued interest recorded in the government-wide statement of net position.

Accrued Interest \$ (2,575)

The governmental fund balance sheet includes a reconciliation between *fund balance - total governmental fund* and *net position- governmental activities* as reported in the government-wide statement of net position. Another element of that reconciliation explains that "long-term liabilities (not due and payable in the next fiscal year) are not reported on the governmental fund balance sheet. The difference of (\$2,031,490) consists of bonds payable of (\$48,999), capital leases payable of (\$200,831), SCRS net pension liability of (\$531,776), PORS net pension liability of (\$1,202,930), and compensated absences payable of (\$46,954).

Capital Leases		\$ (200,831)
Bonds Payable		(48,999)
SCRS Net Pension Liability		(531,776)
PORS Net Pension Liability		(1,202,930)
Compensated Absences		(46,954)
Total		\$(2,031,490)
	-21-	

<u>NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS</u> (CONTINUED)

Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position (Continued)

Furthermore, the government-wide statement of net position reports the net difference between the expected and the actual experience as related to pensions as a deferred outflow of resources. Also, the SCRS and PORS retirement contributions made subsequent to the measurement date of June 30, 2014 are reported as deferred outflows of resources in the government-wide statement of net position. The details of this \$194,191 difference are as follows:

SCRS net difference between expected and actual experience	\$ 15,068
PORS net difference between expected and actual experience	32,101
PORS retirement contributions subsequent to measurement date	110,676
SCRS retirement contributions subsequent to measurement date	 36,346
Net adjustment to increase <i>net changes in fund balance-</i> total governmental funds to arrive at changes in net position	
of governmental activities	\$ 194,191

Lastly, the reconciliation explains that the net difference between the projected and the actual investment earnings as related to pensions is reported as a deferred inflow of resources in the government-wide statement of net position. The details of this (\$184,021) difference are as follows:

SCRS net difference between projected and actual investment earnings	\$ (44.833)
PORS net difference between projected and actual investment carnings	(139,188)
Net adjustment to decrease <i>net changes in fund balance-</i> total governmental funds to arrive at changes in net position of governmental activities	\$ <u>(184,021)</u>

NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONTINUED)

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities

The governmental fund statement of revenues, expenditures, and changes in fund balance includes a reconciliation between *net changes in fund balance total governmental fund* and *changes in net position of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains that "The governmental fund reports capital outlays as expenditures in the year of purchase. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this (\$30,416) difference are as follows:

Capital outlay (Current Year)	\$ 221,438
Depreciation expense	 (251,854)
Net adjustment to decrease net changes in fund balances-	\$ (30,416)
total governmental fund to arrive at changes in net position	
of governmental activities	

Another element of the reconciliation states that "payments on long-term debt are reported as expenditures in the governmental fund. The same payments reduce long-term liabilities in the statement of net position." The details of this difference are as follows:

Principal repayments:	
Capital Leases	\$ 40,710
Bonds payable	 47,178
Net adjustment to increase net changes in fund balance-	\$ 87,888
total governmental fund to arrive at changes in net position	
of governmental activities	

Also, the reconciliation explains that retirement contributions made subsequent to the measurement period are not reported in the statement of activities but are reported as deferred outflows of resources in the statement of net position. However, the actual pension expense reported in the statement of activities is the City's proportionate share of the annual change in the SCRS and PORS net pension liabilities. The details of this \$4,507 difference are as follows:

SCRS retirement contributions subsequent to the measurement date of 06/30/14	\$ 36,346
SCRS proportionate pension expense	(37,272)
PORS retirement contributions subsequent to the measurement date of 06/30/14	110,676
PORS proportionate pension expense	 (105,243)
Net adjustment to increase net changes in fund balances- total governmental fund to arrive at changes in net position of governmental activities	\$.4,507

<u>NOTE 2 – RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS</u> (CONTINUED)

•

Explanation of certain differences between the governmental fund statement of revenues, expenditures, and changes in fund balance and the government-wide statement of activities (Continued)

Uncarned revenue in the governmental fund is not recognized as income until receipt. In the entity-wide statements, revenue is recognized on the full accrual basis.		
Adjustment due to the net decrease in uncarned revenue	\$	(538)
Property taxes, deferred inflows of resources in the governmental fund, are not recognized as income until receipt. In the entity-wide statements, property taxes are recognized on the full accrual basis.		
Adjustment due to the net increase in deferred inflows of resources	\$	8,831
Accrued interest expense is not recognized on the governmental fund statements. Accrued interest is recognized and reported on the entity-wide statements.		
Adjustment due to the net decrease in accrued interest expense, a reduction in expenses.	\$	484
Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in the governmental fund. These include the net decrease in compensated absences, a reduction in expenses.	\$	2,798
The governmental fund reports capital lease obligations as other financing sources. However, in the entity-wide statements, capital lease obligations are reported as additional liabilities.	\$ (167 ,88 3)

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary information:

Budgets and Budgetary Accounting: As set forth in the City Charter, the City Council adopts an annual budget for the general fund and the enterprise fund. The annual budget for the general fund is prepared in accordance with the basis of accounting utilized by that fund. The budget for the enterprise fund is adopted under a basis consistent with generally accepted accounting principles, except that depreciation and amortization are not considered. Additionally, cash outlays for debt principal and fixed assets funded by operations are budgeted, but treated differently in accordance with generally accepted accounting principles. After joint workshops with the City Council, the Mayor submits to the City Council a proposed operating budget covering the general and enterprise funds for the fiscal year commencing the following July 1. These workshops and hearings are open to the public. The operating budget includes proposed expenditures and the means for financing them. Prior to the beginning of the fiscal year, the budget is legally enacted through passage of an ordinance. Appropriations lapse at the end of each fiscal year.

The Mayor is authorized to transfer budgeted amounts within departments within any fund; however, any revisions that alter the total expenditures of any fund or transfer amounts between departments must be approved by the City Council. The presented budgeted amounts are as originally adopted or as last amended by the City Council. There are no reported differences between the original budget and the final budget.

Deposits and Investments:

Section 330.15 of the Federal Deposit Insurance Corporation's regulations governs the insurance coverage of the accounts for public units, which includes states, counties, municipalities, or any political subdivisions of the public units. According to Section 330.15, the insurance coverage of public unit accounts depends upon the type of deposit and the location of the insured depository institution of the official custodian. If the public unit and the public unit's official custodian are located in the same State, then all time and savings deposits owned by the public unit are combined and insured up to \$250,000. Also, all demand deposits owned by the public unit are combined and separately insured up to \$250,000. However, if the public unit and the public unit are combined and insured up to \$250,000. In other words, time and savings deposits would not be insured separately from demand deposits.

At June 30, 2015, the bank balance of the City's cash deposits held at First Citizens Bank was \$674,580, and the bank balance of the City's certificates of deposit was \$19,796. Of the total bank balance of the City's cash deposits and certificates of deposit, \$250,000 was covered by federal depository insurance. Since the City is located in South Carolina, and the official custodian is located in North Carolina, all deposits were combined and insured up to \$250,000. Therefore, total deposits at First Citizens Bank that were not insured by federal depository insurance were \$444,376 on June 30, 2015.

As of June 30, 2015, collateral was pledged to secure the non-federal depository insured bank deposits of the City of Liberty at First Citizens Bank.

The securities are held as book entries at the Federal Reserve in the name of the First Citizens Bank of North Carolina (FCBNC) as Escrow Agent for the First Citizens Bank of South Carolina (FCBSC). FCBNC is an independent, third party entity from FCBSC. The securities are pledged to the entity and can be substituted, but not released, without their consent.

NOTE 3 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY (CONTINUED)

Due From Other Governments

Due from other Governments to the City of Liberty's General Fund at June 30, 2015 consists of the following:

Due from State of South Carolina General Fund:	
Local Option Sales Tax Distributions	\$ 28,988
Aid To Subdivision Distributions	16,593
Merchants Inventory Tax	1,662
Due from Pickens County	
Property Taxes	88,486
Dispatch Services	9,000
Fire Protection	42,500
Part-time Wage Reimbursement for Fire Department	6,976
Reimbursement for Recreation Department	711
School Resource Officer Reimbursement from School District	17,750
Municipal Association of South Carolina	6,865
SC Regional Housing Authority	5,114
Internal Revenue Service	1,341
City of Anderson	.,
Juvenile Housing Fees	780
City of Easley	
Juvenile Housing Fees	195
City of Pickens	
Juvenile Housing Fees	260
City of Oconee	
Juvenile Housing Fees	260
Town of Six Mile	- 0 0
Recycling Income	500
City of Pickens	
Recycling Income	800

NOTE 4 - CAPITAL ASSETS

Capital assets

.

Capital asset activity for the year ended June 30, 2015 was as follows:

Primary Government

	Beginning Balance	<u>Increases</u>	Decreases	Ending Balance
Government activities				
Capital assets, not being depreciated				
Land	\$ 114,668	\$ -	\$-	\$ 114.668
Construction in progress	2,863			2,863

NOTE 8 – EMPLOYEE BENEFITS

GENERAL INFORMATION ABOUT THE PENSION PLAN

Plan descriptions. The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for employees of the state, its public school districts, and political subdivisions. The South Carolina Police Officers Retirement System (PORS), a cost-sharing multiple-employer defined benefit pension plan, was established effective July 1, 1962, pursuant to the provisions of Section 9-11-20 of the South Carolina Code of Laws for the purpose of providing retirement allowances and other benefits for police officers and firemen of the state and its political subdivisions.

Membership. Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees, teachers, and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member. To be eligible for the PORS membership, an employee must be required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; or to serve as a peace officer employed by the Department of Corrections, the Department of Juvenile Justice, or the Department of Mental Health. Probate judges and coroners may elect membership in the PORS. Magistrates are required to participate in the PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two membership and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member.

Benefits provided. The SCRS and PORS provide retirement, disability, life insurance, and death benefits. Key elements of the benefit ealculation include the benefit multiplier, years of service, and average final compensation. A SCRS Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A SCRS Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement. The total of the member's age and the member's creditable service has to equal at least 90 years. Both SCRS Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

NOTE 8 – EMPLOYEE BENEFITS (CONTINUED)

GENERAL INFORMATION ABOUT THE PENSION PLAN (CONTINUED)

A PORS Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A PORS Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both PORS Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

Contributions. Per Title 9 of the SC Code of Laws, contribution requirements of the active employees and the participating employers are established and may be amended by PEBA. SCRS Class Two and Class Three members were required to contribute 8.0 percent of their annual pay for the year ended June 30, 2015. PORS Class Two and Class Three members were required to contribute 8.41 percent of their annual pay for the year ended June 30, 2015. The City's contractually required contribution rate for SCRS Class Two and Class Three members for the year ended June 30, 2015 was 10.75 percent of annual payroll and 13.01 percent of annual payroll for PORS Class Two and Class Three members, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Also, the City's contractually required contributions to the pension plan by the City were \$55.918 and \$110.676, respectively. for the year ended June 30, 2015. Therefore, total SCRS and PORS contributions to the pension plan by the City were \$166,594 for the year ended June 30, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the City reported liabilities of \$818,137 for its proportionate share of the SCRS net pension liability and \$1,202,930 for its proportionate share of the PORS net pension liability. Therefore, the total SCRS and PORS net pension liabilities were \$2,021,067. The SCRS and PORS net pension liabilities were measured as of June 30, 2014, and the total pension liabilities used to calculate the SCRS and PORS net pension liabilities were determined by an actuarial valuation as of July 1, 2013. The City's proportion of the SCRS and PORS net pension liabilities were based on a projection of the City's long-term share of SCRS and PORS contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2014, the City's proportion of SCRS and PORS contributions were 0.0047% and 0.0628%, respectively.

NOTE 8 – EMPLOYEE BENEFITS (CONTINUED)

GENERAL INFORMATION ABOUT THE PENSION PLAN (CONTINUED)

Pension Liabilities, Pension Expense, and Deferred Outflows and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2015, the City recognized A SCRS pension expense of \$57,342 and a PORS pension expense of \$105,242. Therefore, the City recognized total SCRS and PORS pension expense of \$162,584 for the year ended June 30, 2015. At June 30, 2015, the City reported deferred outflows of resources and deferred inflows of resources related to pensions for SCRS and PORS from the following sources:

		Deferred Of Reso				l Inflows sources	
Net difference between expected and		SCRS	PORS	SCI	RS	POI	RS
actual experience	\$	23,182	\$ 32,101	\$	-	\$	-
Net difference between projected and actual investment earnings		-	-	68,9	976	139.	188
Liberty's retirement contributions subsequent to the measurement date		55,918	110,676			···	
Total	<u>s</u>	<u>79,100</u>	<u>\$142,177</u>	<u>\$68,9</u>	<u>)76</u>	<u>\$139</u>	188

For the year ended June 30, 2015, the current year SCRS contribution of \$55,918 and PORS contribution of \$110,676 were reported as deferred outflows of resources related to pensions resulting from the City's retirement contributions made subsequent to the measurement date of June 30, 2014. These will be recognized as a reduction of the SCRS and the PORS net pension liabilities for the year ending June 30, 2016. The net difference of (\$45,794) between the other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions for the SCRS and the net difference of (\$107,087) between the other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions for the PORS will be recognized in pension expense as follows:

<u>Year ending</u>	SCRS	PORS
June 30, 2016	\$ (10.073)	\$ (26,472)
June 30, 2017	(10,073)	(26,472)
June 30, 2018	(10,073)	(26,472)
June 30, 2019	(15,575)	(27,671)
Thereafter	-	_
Total	<u>\$ (45,794)</u>	<u>\$(107,087)</u>

NOTE 8 – EMPLOYEE BENEFITS (CONTINUED)

.

GENERAL INFORMATION ABOUT THE PENSION PLAN (CONTINUED)

Actuarial assumptions. The total pension liability in the July 1, 2013 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement for the SCRS and the PORS:

Inflation	SCRS 2.75 percent	PORS 2.75 percent
Salary increases	3.5 percent	4.0 percent
Investment rate of return	7.5 percent, net of pension plan investment expense, including inflation	7.5 percent, net of pension plan investment expense, including inflation
Benefit adjustments	Lesser of 1% or \$500	Lesser of 1% or \$500

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

An actuarial experience study will be conducted after the June 30, 2015 annual valuation has been completed. This study will involve comparing the actuarial assumptions used in the July 1, 2013 valuation to the actual results as well as making any new estimates and assumptions about the future as related to pensions.

NOTE 8 – EMPLOYEE BENEFITS (CONTINUED)

GENERAL INFORMATION ABOUT THE PENSION PLAN (CONTINUED)

The long-term expected rate of return on pension plan investments for actuarial purposes is based upon the 30 year capital market outlook at the end of the 2012 third quarter. The actuarial long-term expected rates of return represent best estimates of arithmetic real rates of return for each major asset class and were developed in coordination with the investment consultant for the Retirement System Investment Commission (RSIC) using a building block approach, reflecting observable inflation and interest rate information available in the fixed income markets as well as Consensus Economic forecasts. The actuarial long-term assumptions for other asset classes are based on historical results, current market characteristics, and professional judgment.

Asset Class	Target Allocation	Expected Arithmetic Real <u>Rate of Return</u>	Long-Term Expected <u>Real Rate of Return</u>
Short term	5.0%	0.9%	0.03%
Domestic fixed income	13.0	7.4	0.26
Global fixed income	9.0	4.9	0.27
Global public equity	31.0	7.8	2.42
Global tactical asset allocation	10.0	5.1	0.51
Hedge funds	8.0	4.0	0.32
Private debt	7.0	10.2	0.71
Private equity	9.0	10.2	0.92
Real estate	5.0	5.9	0.29
Commodities	3.0	_5.1	0.15
Total Expected Real Return Inflation for Actuarial Purpos	<u>100.0%</u> ses		5.88%
Total Expected Nominal Retu	rn		<u> </u>

The total expected nominal return rate of 8.63 percent has been reduced to 7.5 percent in order to be more conservative.

NOTE 8 – EMPLOYEE BENEFITS (CONTINUED)

GENERAL INFORMATION ABOUT THE PENSION PLAN (CONTINUED)

Discount rate. The discount rate used to measure the total pension liabilities for the SCRS and the PORS was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in the SCRS and the PORS will be made based on the actuarially determined rates based on provisions in the South Carolina State Code of Laws. Based on those assumptions, the pension plans' fiduciary net positions were projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liabilities for the SCRS and the PORS.

Sensitivity of the City's proportionate share of the net pension liabilities to changes in the discount rate. The following table presents the City's proportionate share of the net pension liabilities for the SCRS and PORS calculated using the discount rate of 7.5 percent, as well as what the City's proportionate share of the net pension liabilities for the SCRS and the PORS would be if it were calculated using a discount rate that is 1-percentage- point lower (6.50%) or 1-percentage-point higher (8.50%) than the current discount rate:

Liberty's proportionate share of	1% Decrease <u>(6.50%)</u>	Current Discount Rate <u>(7.50%)</u>	1% Increase <u>(8.50%)</u>
the SCRS net pension liability	\$1,058,720	\$ 818,137	\$ 617,422
Liberty's proportionate share of the PORS net pension liability	\$1, <u>681</u> ,064	\$1,202,930	\$ 807,315
Total	<u>\$2,739,784</u>	<u>\$2,021,067</u>	<u>\$1,424,737</u>

Pension plans' fiduciary net positions. Detailed information about the pension plans' fiduciary net positions is available in the separately issued comprehensive annual financial report (CAFR) containing financial statements and required supplementary information for the SCRS and the PORS. The CAFR of the Pension Trust Funds is publicly available on PEBA's Retirement Benefits' website at www.retirement.sc.gov, or a copy may be obtained by submitting a request to PEBA, PO Box 11960, Columbia, SC 29211-1960.

NOTE 9 – DEFERRED COMPENSATION PLANS

The City employees may participate in the 457, and/or 401 (k) deferred compensation plans available to state and local governmental employees through the state public employee retirement system. These programs are administered by a state approved nongovernmental third party. There are no employer contributions made by the City to these plans.

NOTE 10 – ECONOMIC DEPENDENCY

During the current fiscal year, the City provided service to approximately 1,400 water customers. However, the City did not receive a substantial percentage of its operating revenue from any single water customer.

NOTE 11 – RISK MANAGEMENT

The City carries commercial insurance through the State of South Carolina Municipal Insurance Risk Finance Fund for its general liability insurance and through the South Carolina Municipal Insurance Trust for its workers' compensation insurance. The City pays annual premiums for these coverages. Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

NOTE 12 – SUBSEQUENT EVENTS

We have evaluated all subsequent events through November 30, 2015. Per the City, as of this date, there have not been any subsequent events that should have had an effect on the financial statements as of and for the year ended June 30, 2015.

NOTE 13 – POST-EMPLOYMENT COST AND ACCRUED POST-EMPLOYMENT COST LIABILITIES OTHER THAN PENSIONS

The City has adopted GASB Statement 45. The statement improves the relevance and usefulness of financial reporting by (a) requiring systematic, accrual basis measurement and recognition of post-employment cost (expense) other than pensions over a period that approximates employees' years of service and (b) providing information about actuarial accrued liabilities associated with other post-employment benefits and whether and to what extent progress is being made in funding the plan.

As of June 30, 2015 the City does not have any post-employment cost nor any accrued liabilities associated with post-employment benefits other than pensions.

NOTE 14 - SC DEPARTMENT OF PUBLIC SAFETY GRANT

The City of Liberty received a grant reimbursement in the amount of \$14,849 from the SC Department of Public Safety for the year ended June 30, 2015. This grant reimbursement was for printers, cables, scanners, and cameras for the police vehicles as well as for mounts for laptops used in the police vehicles. Prior to receiving the grant reimbursement, the City had expended \$3,174 on eight printers and cables, \$3,032 on eight scanners, \$7,088 on eight cameras, and \$3,041 on eight mounts for the laptops. Therefore, the total cost of the equipment was \$16,335. This equipment was purchased for the police vehicles in an effort to improve the efficiency and effectiveness of the Police Department by decreasing the time to enter criminal data, to prepare related reports, and to search or update criminal records. Specifically, the printers enabled the police officers to print out tickets and any prior incident reports at the crime scene. The scanners enhanced the accuracy and up to date information on drivers' licenses. Lastly, the mounts allowed the police officers to be able to enter the data on their laptops.

NOTE 15 – SC MUNICIPAL INSURANCE TRUST GRANT

The City of Liberty received a total of \$1,040 in grant reimbursements from the SC Municipal Insurance Trust for the year ended June 30, 2015. These reimbursements were for the purchase of name plates, tactical pants, tactical shirts, vest carriers, and back patches for the Police Department. The total cost to the City was \$2,080.

NOTE 16 - COMMUNITY DEVELOPMENT BLOCK GRANT

The City received grant reimbursements from the South Carolina Department of Commerce for sewer upgrades performed on Commerce Street in Liberty's downtown area for the year ended June 30, 2015. These grant reimbursements were received for invoices submitted to the City by Payne, McGinn. and Cummins at completion of various stages of the project. Also, one of the grant reimbursements was for an invoice submitted to the City by the SC Appalachian Council of Governments for the administrative costs associated with the project. The City received total grant reimbursements of \$60,128 from the South Carolina Department of Commerce for the year ended June 30, 2015. Furthermore, additional grant reimbursements of \$40,053 were accrued that the City received after June 30, 2015 for current year grant expenses. Therefore, total current year grant reimbursements were \$100,181. The City spent \$213,059 of its own funds for the sewer upgrades performed. The sewer upgrades were completed by June 30, 2015.

NOTE 18 - PRIOR-PERIOD ADJUSTMENT

The City adopted the *GASB Statement No. 68, "Accounting and Financial Reporting for Pensions,* for the year ended June 30, 2015. Under this statement, employers are required to report a prior-period adjustment to the beginning net position balance for what the balance would have been had the statement been implemented in the year prior to the City's current year-end. Specifically, the beginning net position should be adjusted for the employer's proportionate share of the net pension liability for the prior year; any retirement contributions made by the employer in the prior year; and any other deferred outflows and deferred inflows of resources, if determinable at implementation of the statement. For the year ended June 30, 2015, the City of Liberty reported a total prior-period adjustment of (\$2,011,371) to the beginning net position balance in the statement of net position for the governmental and business-type activities. This prior-period adjustment included the City's proportionate share of the SCRS and PORS net pension liabilities in the amounts of \$852,339 and \$1,301,861, respectively. This prior-period adjustment also included the retirement contributions made by the City for the SCRS and the PORS in the amounts of \$45,731 and \$97,098, respectively, for the year ended June 30, 2014. The beginning net position balance was not adjusted for any other deferred outflows of resources because they were not determinable at the implementation of the statement.

NOTE 1 – PROPORTIONATE SHARE OF THE NET PENSION LIABILITY

GASB Statement No. 68 requires that a Schedule of Proportionate Share of Net Pension Liability be presented for each cost-sharing pension plan for the last ten years. Specifically, this schedule should present the following information for each year: the employer's proportion (percentage) of the collective net pension liability, the employer's proportionate share (amount) of the collective net pension liability, the employer's covered-employee payroll, the employer's covered-employee payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability. However, until a full 10-year schedule is available, only the year(s) for which the information is available should be presented in the schedule. This information was only available for the year ended June 30, 2014.

NOTE 2 – PENSION PLAN CONTRIBUTIONS

GASB statement No. 68 requires that a Schedule of Pension Plan Contributions be presented for the last ten years if the contribution requirements of the employer are statutorily or contractually established. Specifically, the Schedule of Contributions is to present the following information for the last ten years: the statutorily or contractually required employer contributions, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contributions recognized by the pension plan in relation to the statutorily or contractually required employer contributions recognized by the pension plan in relation to the statutorily or contractually required amount of contributions recognized by the pension plan in relation to the statutorily or contractually required amount, the employer's covered-employee payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required amount, the employer's covered-employee payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contributions as a percentage of the employer's covered-employee payroll. This information has been presented in the Schedule of Contributions for the years ended June 30, 2006, June 30, 2007, June 30, 2008, June 30, 2009, June 30, 2010, June 30, 2011, June 30, 2012, June 30, 2014, and June 30, 2015.

NOTE 3 – METHOD AND ASSUMPTIONS USED IN CALCULATIONS OF ACTUARILLY DETERMINED CONTRIBUTIONS

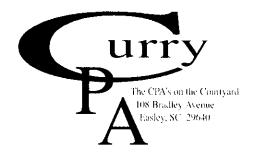

The actuarially determined contribution rates in the schedule of contributions are calculated as of June 30, 2014, one year prior to the end of the fiscal year in which contributions are reported. The actuarial methods and assumptions used to determine the contractually required contributions for the year ended June 30, 2015 reported in that schedule can be found in Note 8 of the basic financial statements.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of the City Council City of Liberty, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Liberty, South Carolina as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the City of Liberty. South Carolina's basic financial statements and have issued our report thereon dated November 30, 2015.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Liberty, South Carolina's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Liberty, South Carolina's internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Liberty. South Carolina's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies 2015-1 through 2012-3 described in the accompanying schedule of findings to be material weaknesses.

To the Honorable Mayor and Members of City Council City of Liberty Page 2

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS (CONTINUED)*

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies 2015-4 through 2015-15 described in the accompany schedule of findings to be significant deficiencies

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Liberty, South Carolina's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings as items 2015-16 through 2015-26.

City of Liberty, South Carolina's Response to Findings

The City of Liberty, South Carolina's response to the findings identified in our audit is described in the accompanying schedule of response to findings. The City of Liberty, South Carolina's response were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Curry, P.A.

Easley, South Carolina November 30, 2015

CITY OF LIBERTY, SOUTH CAROLINA SCHEDULE OF FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

INTERNAL CONTROL OVER FINANCIAL REPORTING

- 2015-1 The accounting personnel lack the formalized knowledge and training to prepare the financial statements in accordance with generally accepted accounting principles. This is a material weakness.
- 2015-2 There is only minimum oversight from the Mayor and Council over the effectiveness of the internal control procedures of the City. This is a material weakness.
- 2015-3 The City's Mayor and Council provide minimum oversight over the City's financial accounting records. This is a material weakness.
- 2015- 4 In some instances the City's accounting personnel both bill the revenue and process the revenue (accounts receivable) payments. Also, in some instances the City's accounting personnel both sign the checks and prepare the bank reconciliations. Therefore, at times there is a lack of segregation of duties in accounting.
- 2015- 5 Three check requests were approved by the same person who made the request. Two of the requests were made and approved by an employee in the Recreation Department for cleaning supplies and a website for the City, and one request was made and approved by an employee in the Police Department for a trip to the Greenville County Recreation Department for the Dare Camp.
- 2015-6 Two petty cash reimbursement requests were not approved. One request was made by an employee in the Administrative Department for a decorative pumpkin for City Hall, and one request was made by an employee in the Recreation Department for décor for the Mayor's office.
- 2015-7 A petty cash reimbursement request was not completed by one employee in the Water Department for postage to ship another Water Department employee's hand held meter to Lexington, KY for repair.
- 2015-8 There were a number of transactions that weren't recorded at year end that were June 30, 2015 transactions. These transactions/adjustments were made through the course of the audit to bring the financial records to the accrual basis of accounting.
- 2015-9 A number of revenue and expense transactions were recorded in the wrong general ledger accounts. These mispostings were corrected during the course of the audit.
- 2015-10 Several payroll errors were identified during the course of the audit. One employee in the Water Department was underpaid for the payroll period ended September 6, 2014, and two employees in the Police Department were underpaid for the payroll periods ended July 13, 2014 and November 15, 2014. Also, one employee in the Water Department was overpaid for the payroll period ended July 13, 2014, and one employee in the Recreation Department was overpaid for the payroll period ended October 4, 2014. Furthermore, one employee in the Administrative Department received a duplicate payment for the payroll period ended October 4, 2014. This amount was repaid by the employee during the current year. Moreover, one employee in the Recreation Department was erroneously paid for sick time for the payroll period ended July 13, 2014. Lastly, one employee in the Water Department was overpaid for the payroll period ended July 13, 2014, and another employee in the Recycling Department was overpaid for the payroll periods ended July 13, 2014, and another employee in the Recycling Department was overpaid for the payroll periods ended July 13, 2014, and payroll periods.

INTERNAL CONTROL OVER FINANCIAL REPORTING (CONTINUED)

- 2015-11 Invoice documentation was not submitted for thirty-three First Citizens credit card charges totaling \$1,208. One credit card charge was for a meal for the Fire Department in the amount of \$25. The Recreation Department made three credit card charges to Ingles, Fred's, and Dollar General totaling \$29. A memo was identified that stated that the charges were for a yard sale held by the City. However, there is no documentation showing what was purchased specifically. Another credit card charge was made by the Public Works Department for shovel and hammer handles in the amount of \$50. Also, a credit card charge was made by the Water Department at a convenience store for an unidentified purchase in the amount of \$6. There was no memo in explanation of the charge. The remaining twenty-seven credit card charges were made by the Administrative Department in the total amount of \$1,098. Out of those twenty-seven credit card charges, eight charges were for various meals and other food items totaling \$207; two charges were for fuel totaling \$45; another charge was for office supplies in the amount of \$56; and the other sixteen charges totaling \$790 could not be identified specifically as to what they were. These sixteen charges were made to Ingles, CVS Pharmacy, Publix, Walmart, and SQ 141 West LLC. According to the memos identified for some of these charges, the purchases were for holiday expenses, office supplies, a Christmas dinner, supplies for a council meeting, and a community clean up. Again, there was no documentation showing what was specifically purchased.
- 2015-12 Four non-credit card purchases made by the Recreation Department were not supported by invoice documentation. These purchases were for food for the banquets held by the Recreation Department. The total of the purchases was \$190.
- 2015-13 Reviews of the fixed assets used by the Public Works, Water, and Recreation Departments were not performed frequently. Also, when the reviews were performed, they were done by the same person who was responsible for purchasing the fixed assets. Therefore, there is a lack of segregation of duties as well.
- 2015-14 Monthly reconciliations of the athletic fees were not performed by the Recreation Department.
- 2015-15 The City's water billing system calculated several water customers' billings incorrectly for October 2014. The water billing system billed the water customers at the minimum rate instead of at the rate in accordance with the number of gallons used by each customer. Based on conversations with the Water Department Clerk, the water billing system frequently makes errors that have to be corrected manually.

COMPLIANCE AND OTHER MATTERS

2015-16 A number of personal charges were identified on the City's First Citizens and Sam's credit cards during the course of the audit totaling \$13,102. These amounts were all repaid to the City during the current year.

CITY OF LIBERTY, SOUTH CAROLINA SCHEDULE OF FINDINGS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2015

COMPLIANCE AND OTHER MATTERS (CONTINUED)

- 2015-17 Two checks were written for which substantiation was not provided to the City. One check was written in the amount of \$600 to be used to purchase a television for a dance class held at the Rosewood Center. Another check was written in the amount of \$1,000 for travel expenses incurred. However, invoices were not provided to substantiate the amounts.
- 2015-18 A check written to petty cash was cashed in order to have change funds for the Liberty Festival. However, no evidence was found that this money was redeposited back into the City's bank account.
- 2015-19 Several employees in the Fire, Police, and Administrative Departments received cell phone upgrades during the current year that were paid by the City.
- 2015-20 One vendor's November 2014 hospitality tax payment was misplaced. This resulted in the vendor having to make the payment again to the City.
- 2015-21 Two vendors did not pay the correct amount of hospitality tax for March 2015. One vendor underpaid, and the other vendor overpaid.
- 2015-22 Registration fees were paid in April 2015 for the attendance of training seminars by the Administrative Department. However, no one attended the training seminars.
- 2015-23 The City withheld retirement contributions at the SCRS member rate instead of at the PORS rate for one employee in the Fire Department.
- 2015-24 Three expenditures were inappropriately made out of the TIF bank account. One expenditure was for the demolition of an old house located in Liberty, and the other two expenditures were for the repair of the door at the Rosewood Center.
- 2015-25 Proof of gross receipts was not submitted with business license applications by nine vendors.
- 2015-26 Under the procurement code and policy, bids are to be obtained for purchases that exceed \$2,500. However the City did not obtain bids for the purchase of a mower for the Recreation Department.

CITY OF LIBERTY, SOUTH CAROLINA SCHEDULE OF RESPONSES TO THE FINDINGS FOR THE FISCAL YEAR ENDED JUNE 30, 2015

.....

- 2015-1 The City will rely upon the expertise of the auditors to prepare the financial statements in accordance with generally accepted accounting principles.
- 2015-2 The City will continue to try to record all of the current year's transactions in the current year's financial accounting records. The City will enhance their month-end and year-end cut-off procedures to ensure that all relevant transactions have been recorded.
- 2015-3 All general ledger account transactions will be reviewed for recording accuracy in the future.
- 2015-4 With the limited accounting staff, total and complete segregation of duties will be hard to achieve. However, the City will review the current duties of the accounting personnel and make necessary changes in the segregation of duties to improve the internal control over the financial transactions.
- 2015- 5 All future check requests will be signed and approved by the respective department heads before being honored by the Administrative Department.
- 2015- 6 All future petty cash reimbursement requests will be signed and approved by the Water Clerk.
- 2015-7 A petty cash reimbursement request will be prepared for all future requests.

. . ..

- 2015-8 The Mayor and or a member of Council will review the effectiveness of the internal control system periodically, and they will make necessary enhancements to the City's internal control system.
- 2015-9 The Mayor and or a member of Council will review the general ledger transactions on a monthly basis. The Mayor will design and implement a monthly transaction checklist to enhance their oversight responsibilities.
- 2015-10 The duplicate payroll check received by the employee in the Administrative Department was repaid during the current year. The overpayments made to the employees in the Water and Recycling Departments were deducted from the employees' next paychecks. With regards to the other payroll errors that were not detected by the City, a more cursory review of payroll data will be performed in the future to prevent these same errors.
- 2015-11 The Mayor issued a memo to each department asking that invoice documentation be submitted for any purchases made for the City. Furthermore, any expenditures for which invoice documentation is not submitted will be perceived as personal, and the employee will be responsible for payment.
- 2015-12 Employees will be more vigilant in submitting documentation for all future expenditures made. Otherwise, the expenditure will be perceived as personal, and the employee will be responsible for payment.
- 2015-13 Reviews of fixed assets will be performed at least quarterly for all departments by someone who is not responsible for purchasing the fixed assets.
- 2015-14 The Recreation Department will designate someone to perform the monthly reconciliation of the athletic fees.

CITY OF LIBERTY, SOUTH CAROLINA SCHEDULE OF RESPONSES TO THE FINDINGS (CONTINUED) FOR THE FISCAL YEAR ENDED JUNE 30, 2015

- 2015-15 The Water Department billed each water customer for the difference between what was actually billed and what should have been billed for October 2014. However, since the City appears to have frequent technical difficulties with the water billing system, the City may need to look into purchasing a more up-to-date billing system.
- 2015-16 The Mayor issued a memo to all departments prohibiting future use of the City's credit cards for personal purchases. Any employees found guilty of utilizing the City's credit cards to make personal purchases will receive disciplinary action.
- 2015-17 No checks will be written for future purchases. Any purchases for the City will be made by credit card and will be substantiated with invoice documentation.
- 2015-18 Any employee who can't provide accountability for a check cashed and used for change funds for a particular event will be responsible for repaying the City for the amount taken out of the City's bank account.
- 2015-19 One employee in the Police Department reimbursed the City during the current year for the upgrade. The employees in the Fire Department repaid the City back after year end for the upgrades, and the employee in the Administrative Department did not repay the City. Any future cell phone upgrades will be the responsibility of the employee.
- 2015-20 All hospitality tax payments will be submitted to one person and kept in a secure central location until deposited.
- 2015-21 The City billed the vendor who underpaid the March 2015 hospitality tax payment for the difference between the amount that was actually paid and the amount that should have been paid. Also, the City paid the vendor who overpaid the March 2015 hospitality tax payment for the difference between the amount that was actually paid and the amount that should have been paid.
- 2015-22 Any employee who does not attend any future training seminars paid by the City will be responsible for reimbursing the City.
- 2015-23 The City will be more vigilant in ensuring that the appropriate rate is being withheld for SCRS members and for PORS members.
- 2015-24 The City transferred the money back into the TIF bank account.
- 2015-25 When applicable the South Carolina Department of Revenue's gross sales listing will be utilized to confirm gross receipts.
- 2015-26 The City will practice better adherence to the procurement code and policy as needed in the future.
